FRESH DOUGH. NEVER FROZEN.

We believe in Here and Now. To us, that means fresh dough, NEVER FROZEN, made in-house each day. Our pizza crust is made simply from unbleached flour, filtered water, extra-virgin olive oil, salt and a touch of sugar. No chemicals. No additives. No kidding.

Why all the fuss about the crust? Because at Blaze, **we believe that fresh dough and clean ingredients make better pizza.** It's that simple.

It's how we've nixed the nitrites from our cured meats, switched to "true hue" banana peppers and olives without artificial colors, and created our own salad dressings, leaving the artificial preservatives behind. *Keepin' It Real* is a food philosophy we embrace fully, and with every pizza we serve, we advance our commitment to clean food and simple ingredients.

ECO-FRIENDLY PACKAGING.

We believe that the decisions we make for the Earth are extremely important, too. That's why **we've gone to great lengths to make sure that our packaging is recyclable, compostable, and/or made from post-consumer reclaimed materials.** Forks, knives, cups, straws, lids — even those cute little containers that hold the salad dressing — were thoughtfully chosen because they left a smaller footprint than most commonly available choices.
